

There are 12 months in a year. Can you order the months of the year?
Draw a line from each month to its place in the year. March is done for you!

1	2	3	4	April
5	6	7	8	July
9	10	11	12	June
March	February	December	October	September
November	May	January		

Ordering months of the year.

Some months are missing from this list. Write **all** the months in order adding those missing.

January February April June July September November December

Remember there should be 12!

What might happen in August? _____
