

Think

Where is this man rowing? What is the boat made from?

Respond

Write a diary from the point of view of a lone rower. What do you see? What do you do? How do you feel?

Solve

Graham Walters was 72 years and 192 days old when he completed his row across the Atlantic. The voyage took 96 days. How old was he when he set off? If he were to have twelve weeks rest before rowing the return journey in the same time, how old would he be when he reached home?

Reimagine

Origami is the art of paper folding. Can you make a boat just by folding paper that will float? There are lots of tutorials online to help.

Discuss

Why do people set and break records?

Discover

Fact: Graham Walters has become the oldest person to row across the Atlantic Ocean.

Question: Who was the first to do this?
